

disclosed by Price limits the mobility of a wearer, rendering unsuited for use in many situations. The teachings of Colitz and Mechin are deficient, with respect to the embodiments disclosed and claimed by the Applicant.

The applicant notes the rejection of claims 2 and under 35 U.S.C. § 112 paragraph 2. At this time, the applicant has elected not to amend the claims, but instead requests that the examiner reconsider the rejection in view of the disclosure appearing in the specification at page 2 line 24 to page 3 line 10.

Wherefore, based upon the foregoing it is submitted that the application is in condition of allowance and a relatively early reply to this paper would be appreciated.

Respectfully submitted,

A handwritten signature in black ink, appearing to be 'RD' followed by a long horizontal stroke.
